my Social Security is a free online account that allows people quick, secure access to their personal Social Security information.

Why create a *my* Social Security account?

- Individuals can use *my* Social Security to access their *Social Security Statement* to check their earnings and get estimates of future retirement, disability, and survivor benefits you and your family may receive.
- If you already receive Social Security benefits, you also can get your benefit verification letter, change your address and phone number and start or change direct deposit information.

To create an account, visit www.socialsecurity.gov/myaccount and select **“Create An Account.”** You will have to provide some personal information about yourself and give us answers to some questions only you are likely to know to verify your identity.

Next, you choose a **“username”** (8 to 20 letters and/or numbers) and an **“8-character password”** (at least one capital letter, one lowercase letter, at least one number and at least one symbol) to access your online account. This process protects you and keeps your personal Social Security information private.
